Michal Mucha

Full-stack software engineer

Full-stack software engineer from Slovakia, based in the Netherlands. I build production websites and web applications with React, Next.js and Node.js, from the interface to the APIs and servers behind it. I combine a part-time developer role with a BSc in Software Engineering, and I am currently focusing on cyber security.

01 EXPERIENCE

Full-Stack Developer
MAR 2025 – PRESENT

INSTANCE STUDIO · PART-TIME · ARNHEM, NL

- Build and maintain production websites and web applications with Next.js and a headless CMS.
- Develop Shopify-integrated storefronts and custom front-end features for client brands.
- Work across the stack, from data modelling to the interface.

Frontend Developer
JUN 2024 – AUG 2024

BOOTIQ, BIQ GROUP · CONTRACT · BRATISLAVA, SK

- Delivered features across DPD Slovakia's CashApp: mobile app, web platform, admin tools and payment gateway.
- Built a Shopify-integrated e-commerce site in React for Rezztek.
- Developed supporting APIs in PHP and Node.js and managed SQL data storage.

Frontend Developer Intern
AUG 2023 – OCT 2023

BOOTIQ, BIQ GROUP · BRATISLAVA, SK

- Built responsive client interfaces, including Curaprox, with React and TypeScript.
- Integrated SQL back-ends and resolved UI performance issues.

02 EDUCATION

BSc Computer Software Engineering
2024 – 2028

SAXION UNIVERSITY OF APPLIED SCIENCES · DEVENTER, NL

Secondary education
2020 – 2024

GYMNÁZIUM POPRAD · SLOVAKIA

03 PROJECTS

2023 **LeafLoop**
AI-driven smart flowerpot. A camera identifies the plant, AI builds its care profile and the pot adapts to it, tracking humidity, light, temperature and water level. Hardware, mobile app, web library and a custom AI chatbot connected through my own REST API.

1ST PLACE · TELEKOM ENTER PROGRAMIÁDA

2026 **Mellow**
macOS menu bar app in Swift that warms, softens and dims the screen in the evening, with its own website.

TOOLS **zipp, superfind, bemlens**
Backup manager in Go and two VS Code extensions for code search and BEM/SCSS navigation.
